Subject: Data Sharing Code of Conduct

Hi

I would like to see much more simple and detailed guidance for education institutions dealing with requests from the police e.g. DP2, DP7 and DP9 requests.

When can we refuse requests, when should we request a court order etc.

At the moment it is not clear enough or simple enough to follow, there is a strong belief especially within the police force that these documents mean we have to by law hand over the information.

Kind regards
